BIO-LUME

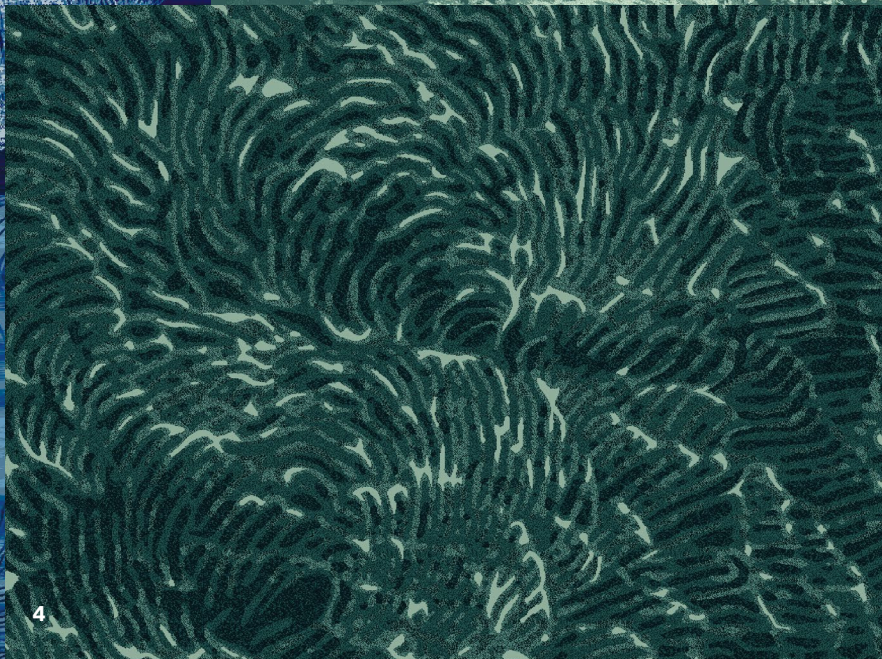

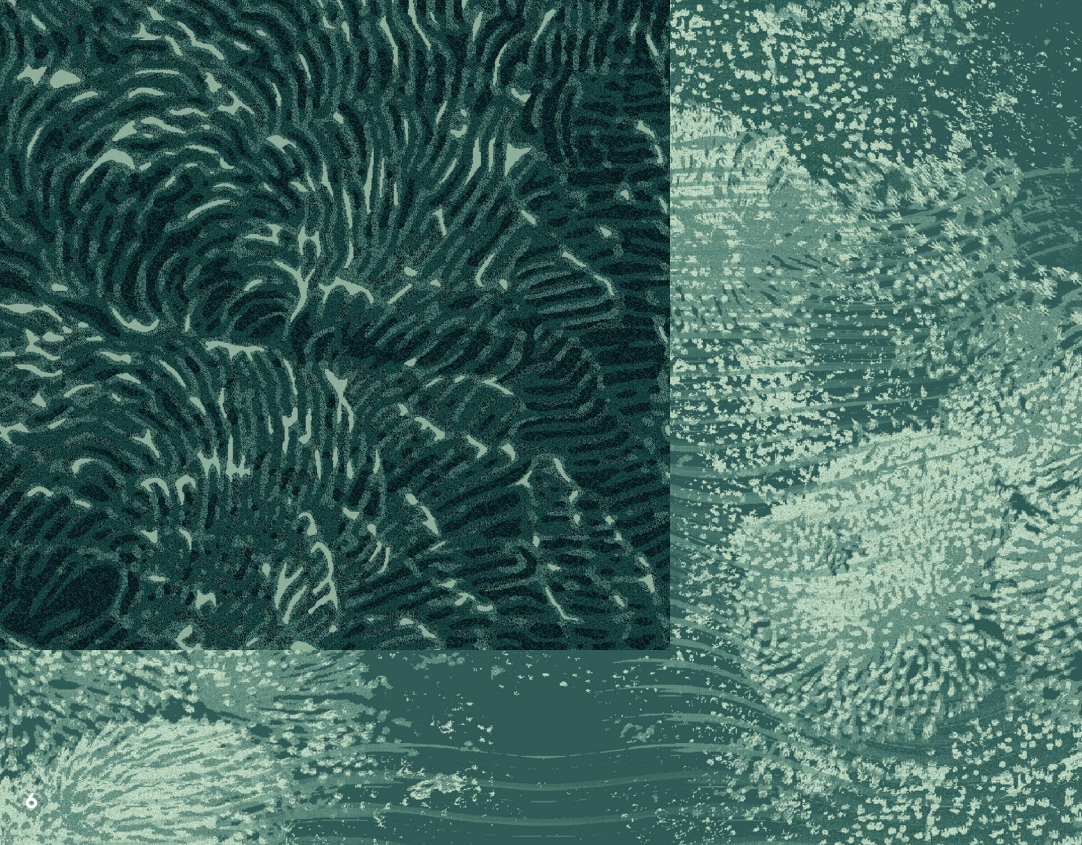

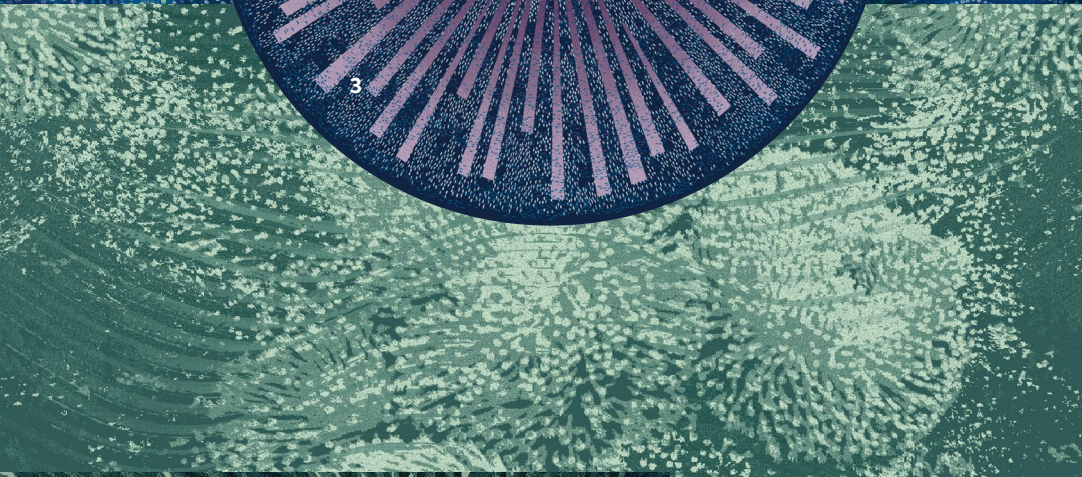

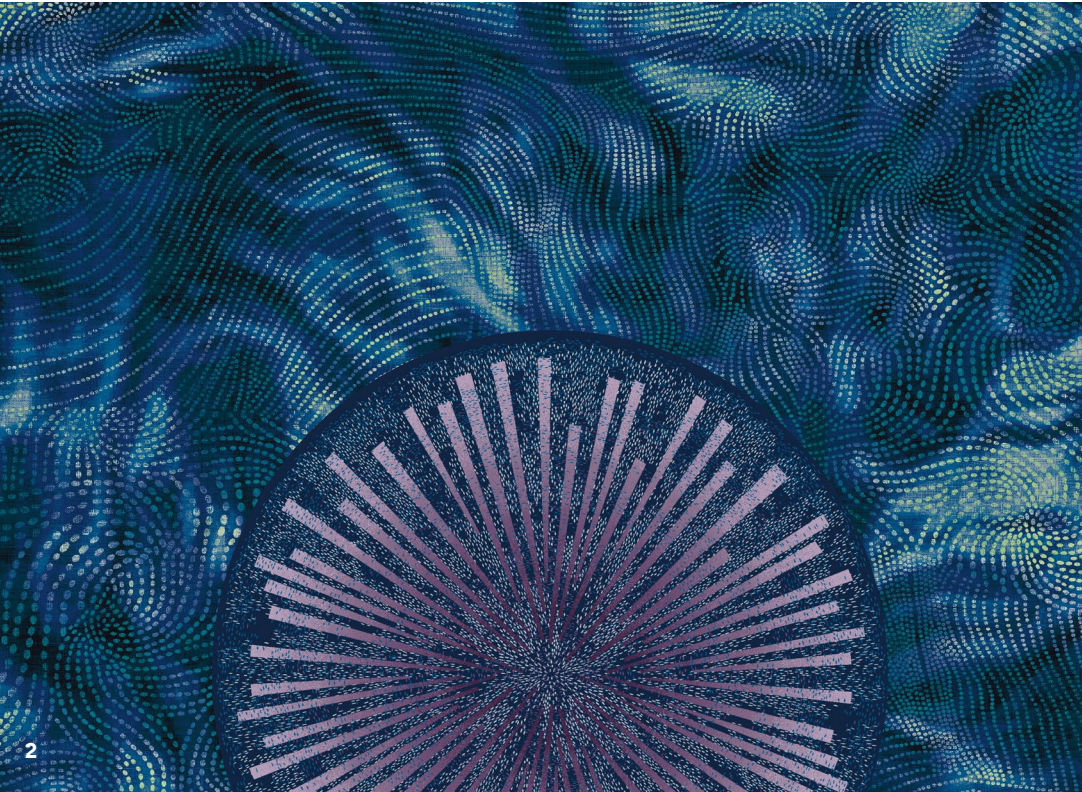

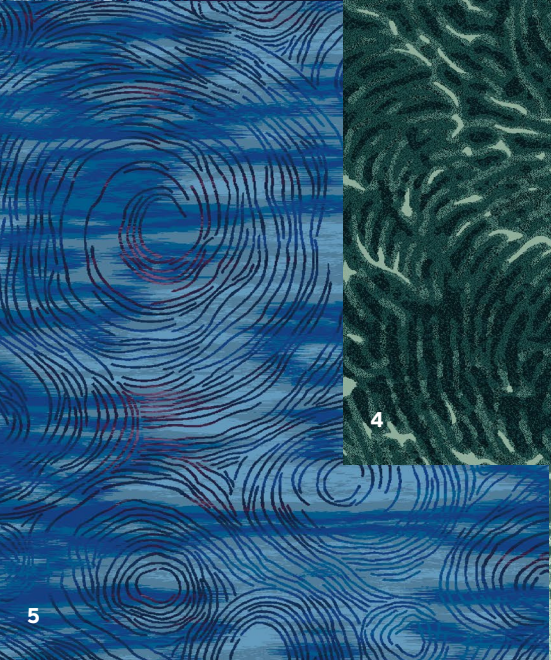

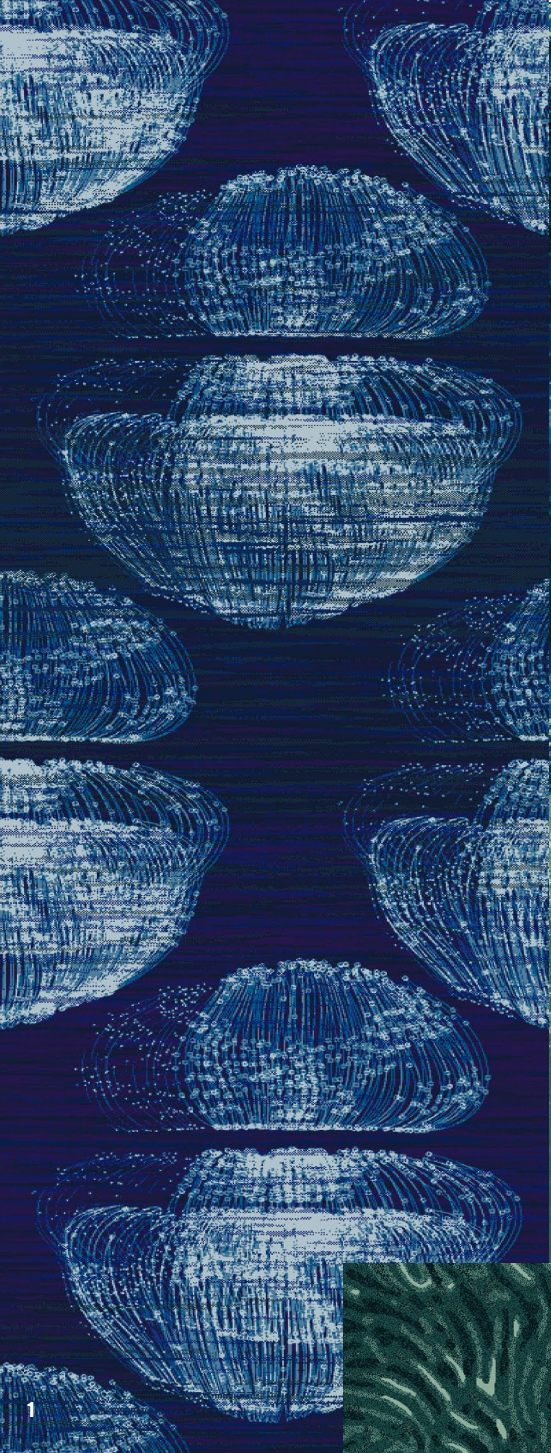

Bio-lume

Captivated by the glowing creatures of all sizes from Earth's great watery frontier, Bio-lume catapults the mystery of the ocean to wool-rich carpet designs for cruise ships.

Inspired by the natural phenomena of bioluminescence, each unique piece in this collection elegantly merges nature's glowing wonders with the artistry of carpet making, creating a harmonious blend of radiant hues and ethereal patterns that will illuminate any space with a sense of enchantment and intrigue.
