## Frozen Oasis

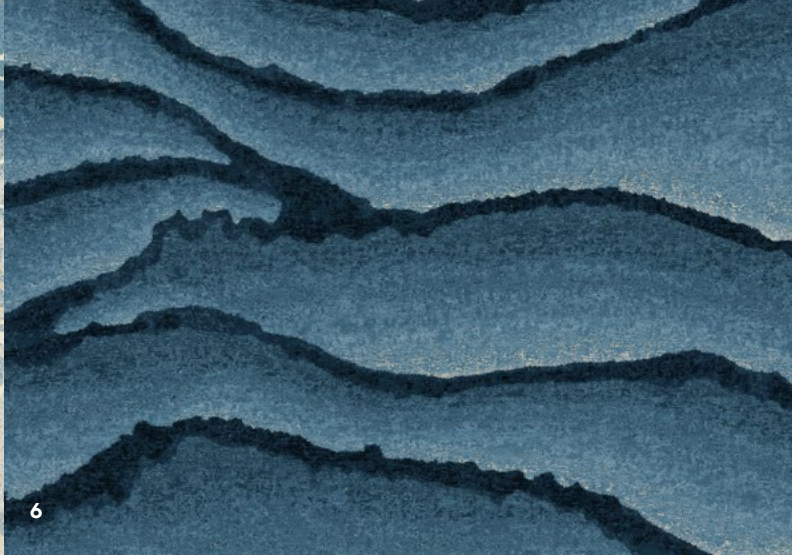

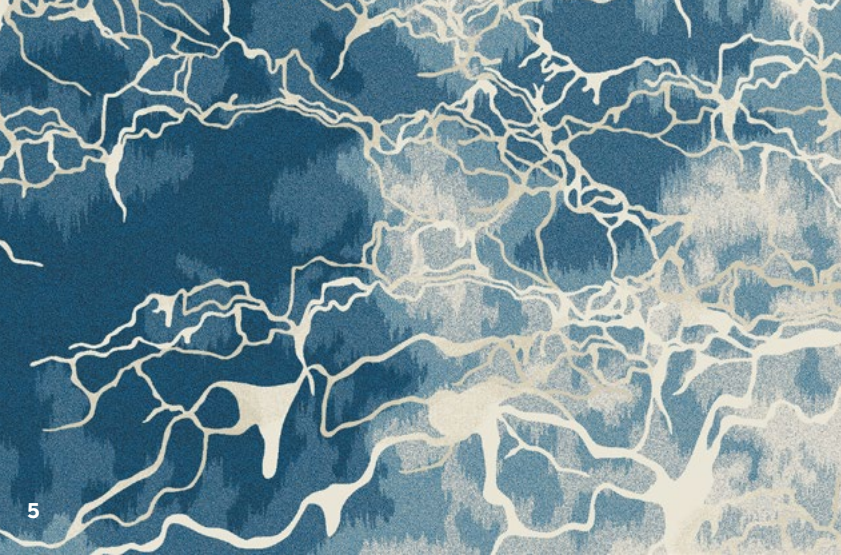

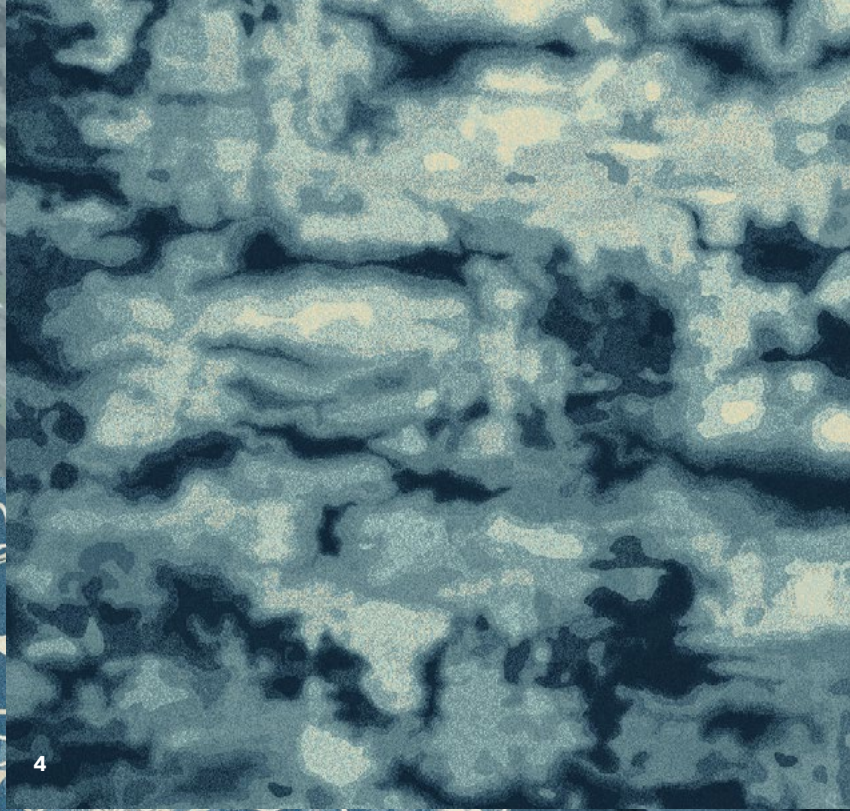

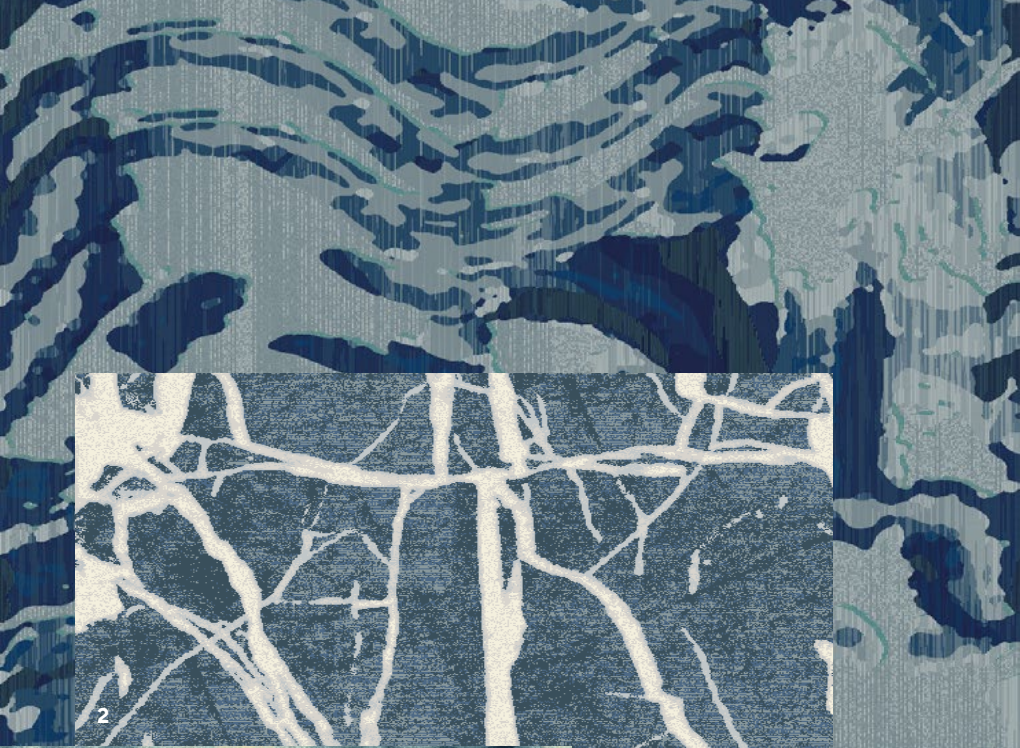

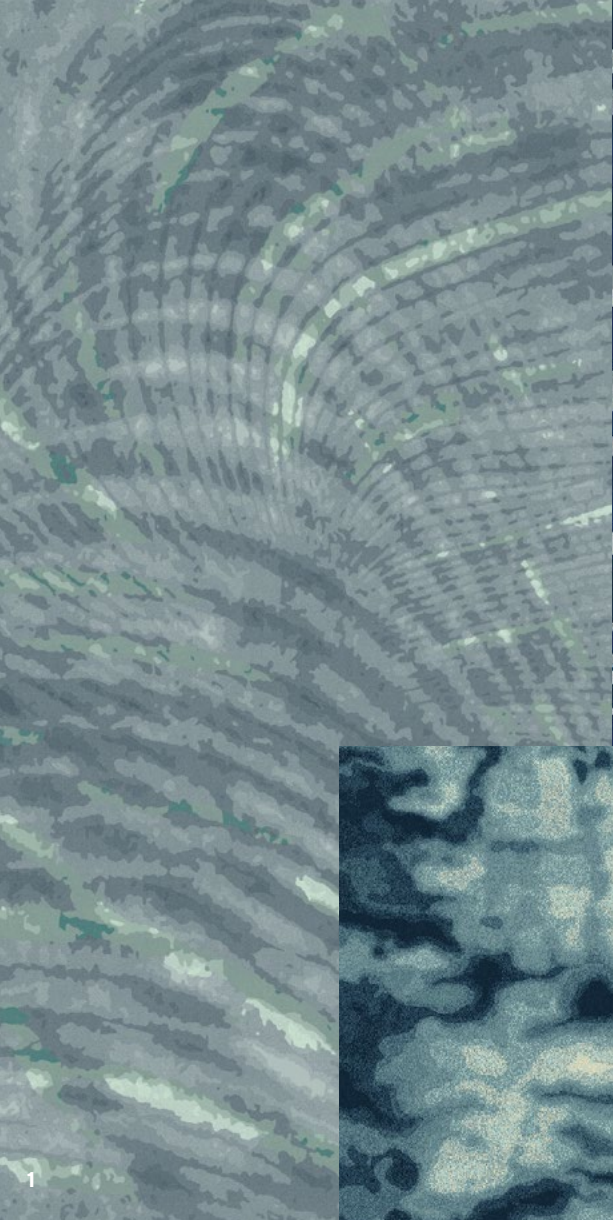

There's an adventurer's spirit in all of us.

Frozen Oasis takes bucket list destinations to the next level with designs inspired by the Alaskan coast, Norwegian Fjords, and the natural frozen oases we seek out while cruising the globe.

Inspired by the serene beauty of frozen waters, each design captures the unique texture and color palette of frozen landscapes, adding a touch of elegance and tranquility to any space. Experience the beauty of icy blues and crisp whites with our Frozen Oasis capsule collection.
